Virginia Economic Development Incentive Grant (VEDIG)

Grants.gov

Grants.gov is one of the first resources you may want to investigate for business grants —both minority grants and other opportunities. The database, maintained by the Office of Management and Budget (OMB), contains information about more than 1,000 federal grants. It also includes details about the eligibility requirements for each program

To apply for a grant through the Grants.gov system, you'll need to first establish a Workspace account that you (and your team) use to access the system's applications. Once you complete this step, you'll be free to search for federal grants that align with your business goals and apply for those you believe are a good match for you.
